PROFILE

Motivated Computer Science student with hands-on experience in software development, web technologies, and collaborative projects. Strong foundation in programming, problem-solving, and technical communication. Seeking opportunities to grow as a software developer while contributing to real-world projects

SKILLS

Java, Python, JavaScript,
HTML, CSS, SQL, Flutter,
Firebase
Communication, Time
Management, Problem
Solving

EDUCATION

Dalhousie University, Halifax,
NS

Expected Graduation: 2028

Bachelor of Computer
Science / Applied Computer
Science

East Beringer Community
College

20XX-20YY

AA in Communications

PROJECTS

Portfolio Website

2026

- Designing and developing a personal portfolio to **showcase projects, skills, and academic experience** in a professional and accessible format.
- Building using **HTML, CSS, and JavaScript**, with a focus on clean design, responsiveness, and easy navigation.
- Deploying with **GitHub Pages** to provide **reliable, free hosting** and seamless updates through Git-based version control.

Beach Bluenoser – Mobile Application (Team Project)

Flutter / Firebase | Ongoing

- Working as part of a student development team to build a **cross-platform mobile application** that helps tourists explore **Nova Scotia beaches** based on preferences such as weather conditions, lifeguard availability, and parking access.
- Developing the front end using **Flutter and Dart**, ensuring consistent performance across Android and iOS platforms.
- Using **Firebase** as the backend for data storage, real-time updates, and application services.
- Actively implementing and refining core features, including **UI improvements, platform stability, and iOS functionality**.

- Android version is currently deployed internally on Google Play, with ongoing development to prepare the app for full public release.
- Gaining hands-on experience with **team-based development, version control, documentation, and iterative feature development.**
