EDUCATION

Dalhousie University

Halifax, Nova Scotia

Bachelor of Applied Computer Science

Expected Graduation, April 2028

- **Related Coursework:** Data Structures & Algorithms, Workplace Communications, Intro to Project Management, Intro to Database Systems, Intro to Programming

PROJECTS

Beach Bluenoser – Mobile Application (Team Project)

Jan 2026 – April 2026

Junior Developer | Flutter, Dart, Firebase, GitLab

- Contribute to a student team developing a mobile app that helps tourists explore Nova Scotia beaches by weather conditions, lifeguard availability and parking access.
- Redesigned the login page to organize account options and improve visual clarity within a shared Flutter/Dart codebase for Android and iOS.
- Fixed a business-account navigation bug by adding the missing My Ads link, restoring access to the advertisement management page.
- Reorganized the selected beach details page and polished the homepage to make beach information clearer and easier to navigate.
- Collaborated using GitLab version control, project documentation and an Agile/Scrum workflow organized into five two-week sprints.

Portfolio Website

March 2026 – April 2026

HTML, CSS, JavaScript, GitHub Pages

- Designing and developing a personal portfolio to present projects, technical skills and academic experience in a professional, accessible format.
- Building responsive layouts and clear navigation using HTML, CSS and JavaScript.
- Preparing deployment through GitHub Pages, with Git-based version control to manage updates.

My Carbon Footprint V1 – Mobile Application

September 2026 | Ongoing

Planned Stack: React Native, Expo, TypeScript, SQLite

- Building an Android and iOS app that estimates personal transport emissions from automatically captured or manually entered journeys, with user-confirmed travel modes.
- The features include daily and weekly dashboards, trip history, calculations using versioned official emissions factors, offline storage and data export and deletion controls.

CERTIFICATIONS

AWS Certified Cloud Practitioner – Amazon Web Services

September 2026

SKILLS

Programming: Java, Dart, Python, JavaScript, HTML/CSS, SQL, Node.js, React.js, Flutter, Express.js, TypeScript

Tools: Android Studio, IntelliJ, AWS, Git, GitLab, Firebase, Bootstrap, Spring Boot, Agile
